GENERAL INFORMATION

Vision

To be a leading and highly recognized provider of premier infrastructure and construction services across the region.

Mission

Kuwait Road Builders (KRB) is dedicated to delivering superior infrastructure and construction solutions to clients who value quality and excellence. Our mission is driven by:

- A steadfast commitment to service excellence and customer satisfaction
- Adherence to international and local standards of reliability and quality
- •Timely completion of projects without compromising on performance
- •The expertise of a professional management team and a highly skilled workforce

Through these principles, KRB aims to exceed expectations and contribute meaningfully to the region's development.

KRB Overview

Kuwait Road Builders (KRB) is a leading construction and infrastructure company based in Kuwait, with a core specialization in road works and a broad portfolio of civil and infrastructure services.

With a strategic focus on collaboration and long-term partnerships, KRB has established strong working relationships with key government and public sector entities, including:

- Ministry of Public Works
- Public Authority for Housing Welfare
- Ministry of Electricity
- Ports General Authority
- The Public Warehouse Company

Backed by a team of experienced management professionals, skilled engineers, technical specialists, and trained manpower, KRB consistently delivers projects that meet the highest standards of quality and reliability. The company also benefits from an extensive network of trusted local and international suppliers, adding value to every project through enhanced performance and efficiency.

General Information

شركة بناؤون الطرق الكويتية

للتمارة العامة والمقاولات ذ.م.م

**

Attached to letter Ref: K11047/COAE/S/0053 dated November 3, 2011.

Request for Subcontractor Approval M/s KBR for Excavation and Backfilling works for COAE

The Proposed Subcontractor is accepted to do excavation works only at the Contractors responsibility. However, approval of KBR is subject to their compliance with the following:

- 1-Submission of a detailed list of the equipment allocated to the project.
- 2-Submission of a detailed list of the sub-contractor personnel allocated to the project.
- 3-Full adherence to the project's quality plan.
- 4-Full adherence to the project's safety plan.
- 5-Submission of an updated financial report for the year 2010.

6-As for the other part of the proposed scope, that is backfilling, this is approved subject to coordination with the approved lab in order to use the specified materials for backfilling works and to ensure that the excavated materials are properly classified and stored for use in future backfilling.
